SIBAT – ISRAEL MINISTRY OF DEFENSE

Hall 6 | E279

Sibat is the International Defense Cooperation directorate of the Israel Ministry of Defense (IMOD). Working with partners all over the world, SIBAT serves as a gateway to Israel's vast defense ecosystem. As a government directorate, SIBAT fulfills a leading role in the Israeli Defense Ecosystem, maintaining a close, ongoing relationship with Israel's defense industries, the IDF and other Israeli defense authorities. This unique position enables SIBAT to remain informed in a fast-paced and dynamic defense field, to promote international defense cooperation and to provide global partners with tailored defense solutions.

AERONAUTICS LTD.

Hall 6 | E380

AERONAUTICS™
YOUR EDGE IN THE FIELD

Aeronautics is a world leader in designing, developing and manufacturing Unmanned Aerial Systems (UAS) for Global Defense & HLS.

Aeronautics' broad product portfolio includes the expertise of its subsidiaries and offers cutting-edge solutions for a wide range of Intelligence, Surveillance and Reconnaissance (ISR) missions in the modern battlefield.

ASIO TECHNOLOGIES LTD.

Hall 6 | E279

Asio Technologies stands as a global leader in delivering tactical solutions tailored for defense and HLS (Homeland Security) applications. Our expertise encompasses Tactical Mission Enhancement Systems, optical positioning systems, inertial sensor fusion, and a streamlined GIS framework, providing combat-proven and life-saving capabilities for maneuvering forces. For nearly two decades, we have been at the forefront of innovation, supplying cutting-edge technologies, systems, and solutions to clients in Israel and worldwide.

RESHET GRAF LTD.

Hall 6 | DE323

infrared-ID est. 1977 develops and manufactures combat-ID solutions for NVG and Thermal devices, including Passive Thermal Targets for shooting and zeroing.

Passive optical IFF markers for personal and vehicles.

- IR and Thermal ID Patches
- Vehicle 'V' markers
- Thermal ID panels
- Passive Thermal targets

ROBOTICAN

Hall 6 | E279

Robotican has been developing and manufacturing autonomous robots and drone systems for more than a decade. Our products are designed and enhance capabilities, performance, and efficiency in unconventional areas and dangerous missions. Our Products include an indoor and subterranean "Rooster" hybrid drone system, "Goshawk" drone interceptor, "Sphera" simulation & Autonomous kit.

RP OPTICAL LAB LTD.

Hall 6 | D144

RP Optical Lab Ltd. is the designer & manufacturer of Electro Optic Lenses, Cameras & Multi Sensors, covering the entire operational waveband of Electro Optics.

Over 100 Global Customers, both B2B System Integrators & B2G End Users.

- Thermal Imaging MWIR Cooled.
- Thermal Imaging LWIR Cooled.
- Thermal Imaging LWIR UnCooled.
- SWIR.
- NIR.
- Visual.

RT LTA SYSTEMS LTD.

Hall 6 | E279

RT is a world leader in the development and manufacture of Aerostat systems. The Skystar™ systems are operationally deployed worldwide and have accumulated more than 5 Million operational hours supporting military and security users performing persistent ISR, border and coastal security, target acquisition, perimeter security, search and rescue and emergency response missions.

SCD – SEMI CONDUCTOR DEVICES

Hall 6 | D279

SCD is a worldwide leader in development and manufacture of cooled and uncooled infrared detectors for the Defense, HLS and Commercial markets. SCD's detectors are based on a variety of sensing materials such as InSb, XBN, InGaAs, T2SL and VOx which are integrated in Airborne, Maritime, Land, and Space applications.

sentrycs

SENTRY CS LTD.

Hall 6 | E279

Sentrycs is a leader in adaptive counter-drone solutions, based on cyber over RF technology, designed to identify, track, identify, and mitigate unauthorized drones. Sentrycs has offices in Israel and the US, serving customers worldwide in the defense, HLS, law enforcement, prisons, and critical infrastructure industries.

SK GROUP

Hall 6 | D311

SK Group is a privately held technology and innovation holding company, founded by Samy Katsav, specializing in defense, para-military solutions, marine infrastructures and more. With a 90-years history of R&D and manufacturing, SK Group provides small arm systems, sights, electro-optic and laser solutions, imaging systems, naval solutions and more.

SKYLOCK

Hall 5B | E424

SKYLOCK designs and manufactures counter-drone technologies for the detection, verification, and neutralization of unauthorized drones. Our experts develop modular, multi-layered counter-drone systems and countermeasures, delivering comprehensive solutions for airports, critical infrastructures, military bases, front line troopers, VIP's convoy, on the move solution and national events against evolving drone threats.

SMARTSHOOTER LTD.

Hall 6 | DE310

Smart Shooter develops intelligent Fire Control Systems for small arms that significantly increase weapon accuracy and lethality when engaging static and moving targets, on the ground and in the air, day and night. SMASH is designed to interconnect with operational resources to form a micro-tactical network delivering real-time situational awareness.

SOURCE VAGABOND SYSTEMS

Hall 6 | C336

SOURCE, established in 1989, boasts over three decades of experience in genuine innovation and manufacturing top-quality gear. As Israel's largest tactical gear manufacturer and exporter, it is globally recognized for its leadership in design and technology. Trusted by armed forces and numerous organizations worldwide, SOURCE specializes in revolutionizing traditional textile-oriented designs into a new generation of high-end, innovative gear.

SPEAR UAV

Hall 6 | F379

Spear UAV is a unique system house that develops and produces smart, encapsulated Unmanned Aerial Systems (eUAS) - loitering munitions, reconnaissance, etc. - with AI-driven capabilities that meet the integration challenges of lower echelon forces (infantry and mechanized). Israel's Ministry of Defense's procurement of Spear UAV systems has led to game-changing capabilities and outcomes.

STEADICOPTER LTD.

Hall 6 | C304

Steadicopter Ltd. is a revolutionary player in the Rotary Unmanned Aerial Systems (RUAS) industry, specializing in the design, development, and production of rotary tactical UAS.

The company provides full-featured solutions for any in-field requirements, enabling vertical take-off and landing, steady hovering and leading mission sensor suites for day and night.

TAR IDEAL CONCEPTS

Hall 5B | E424

TAR is a leading global technology integrator developing proactive public safety and security solutions to detect, mitigate, and prevent air, land, or sea threats for governments, HLS & intelligence agencies, and first responders. TAR is Client-oriented, we provide comprehensive turn-key solutions; from analysis, through solution architecture and R&D, to integration, implementation, and training.

THERMAL BEACON

Hall 6 | E279

Thermal Beacon Ltd.
Secure Optical Signailg 

Thermal Beacon develops and produces high-end innovative Electro-Optical and DVRs:

- **Secure Optical Signaling for Identification of Friend or Foe (IFF)**

Thermal wavelengths LWIR, MWIR, and SWIR.

- **Powerful lasers for pointing, illuminating and dazzling**

Green, Red, IR and SWIR wavelengths.

- **Military Digital video recording**

Multi-channel, any format with tactical HD displays.

THIRDEYE VISION LTD.

Hall 6 | E279

ThirdeEye Systems leads in AI analytics for vision and robotics, empowering robots with real-world comprehension for impactful missions.

Our technology offers immediate reaction time, enabling tactical tools like area dominance, precise navigation, launch detection, and object recognition.

We offer full turn-key solutions and subsystems for OEM's, for optimizing performance at the edge.

TOMER – A GOVERNMENT-OWNED COMPANY LTD.

Hall 6 | D336

Tomer, a government-owned defense company Ltd., is positioned at the forefront of rocket propulsion technology development and manufacturing.

Providing a national knowledge center for the State of Israel, Tomer develops and manufactures rocket systems used in air, land, and naval weapon systems used by Israel's Ministry of Defense (MOD), Israel Defense Forces (IDF), and foreign armed forces.

UVISION AIR LTD.

Hall 6 | F379

UVision designs, manufactures and delivers a comprehensive range of lethal loitering solutions. The HERO Family of loitering munitions provides organic, tactical target acquisition and attack capabilities. Suitable for air, land & sea operations, the HERO family presents multi-domain, multi-mission solutions to align with contemporary battlefield doctrines, ensuring rapid sensor-to-shooter effectiveness.
