SIBAT
INTERNATIONAL DEFENSE COOPERATION

Sibat is the International Defense Cooperation directorate of the Israel Ministry of Defense. Working with partners all over the world, SIBAT serves as a gateway to Israel's vast defense ecosystem. As a government directorate, SIBAT fulfills a leading role in the Israeli Defense Ecosystem, maintaining a close, ongoing relationship with Israel's defense industries, the IDF and other Israeli defense authorities. This unique position enables SIBAT to remain informed in a fast-paced and dynamic defense field, to promote international defense cooperation and to provide global partners with tailored defense solutions.

ACCUBEAT LTD.

AccuBeat Ltd.
Accurate Frequency & Time

AccuBeat is a leading developer and manufacturer of accurate Frequency and Timing solutions for the Defense, Homeland Security (HLS), Aerospace, and other critical industries. Leveraging proprietary Rubidium Atomic Clock technology, with optional GNSS disciplining and GNSS resilience solutions, AccuBeat delivers products that meet the highest standards of accuracy and reliability.

ASHOT ASHKELON INDUSTRIES LTD.

ASHT
ONE PARTNER. TOTAL CONFIDENCE.

Ashot is a world leading manufacturer of advanced drivetrain systems and precision components for the defense and aerospace industries. For over 65 years, we have provided mission-critical solutions, supporting the world's leading armored vehicle and aerospace platforms with proven manufacturing excellence.

ASIO TECHNOLOGIES LTD.

ASIO develops combat-proven tactical systems that enable ground dominance and operational independence for maneuvering forces. Powered by its proprietary GeoFusion™ technology, ASIO delivers mission command, tactical situational awareness, resilient navigation, and mission planning solutions for complex and contested environments. ASIO systems are deployed at scale across the IDF and by defense customers worldwide.

LOWENTAL HYBRID

Lowental Hybrid develops Native Parallel Hybrid™ propulsion systems for tactical UAVs and loitering munitions. Its technology combines electric power and combustion endurance on the same drivetrain, enabling 5x extended mission time, silent operation, in-flight charging, and built-in redundancy. Designed for VTOL/non-VTOL fixed-wing platforms, Lowental Hybrid's systems help operators increase endurance and mission flexibility without relying on batteries alone.
