SIBAT

INTERNATIONAL DEFENSE COOPERATION

SIBAT – ISRAEL MINISTRY OF DEFENSE

Sibat is the International Defense Cooperation directorate of the Israel Ministry of Defense. Working with partners all over the world, SIBAT serves as a gateway to Israel's vast defense ecosystem. As a government directorate, SIBAT fulfills a leading role in the Israeli Defense Ecosystem, maintaining a close, ongoing relationship with Israel's defense industries, the IDF and other Israeli defense authorities. This unique position enables SIBAT to remain informed in a fast-paced and dynamic defense field, to promote international defense cooperation and to provide global partners with tailored defense solutions.

ASIO TECHNOLOGIES LTD.

ASIO develops combat-proven solutions that ensure operational independence for ground maneuverers. Its portfolio includes mission-enhancement and tactical intelligence systems, command and control platforms, situation awareness, jam-proof and drift-free navigation systems for aerial platforms, advanced target acquisition, and north-finding technologies, all powered by its proprietary GeoFusion™ core. ASIO systems are deployed across IDF and adopted by defense customers worldwide.

INTERNATIONAL DEFENSE COOPERATION

BEESENSE SENSORS SYSTEMS LTD.

BeeSense delivers field-proven, multi-sensor surveillance systems designed to secure borders, high-risk environments and Special Forces operations.

Leveraging decades of operational experience, it provides continuous coverage, real-time situational awareness and reliable performance. Fully modular and mission-driven, BeeSense systems integrate seamlessly, eliminate blind spots and deliver actionable intelligence.

CTI INTL- SOLUTIONS LTD.

Founded in 2012, CTI is a leading designer and manufacturer of combat-proven computing solutions for manned and unmanned platforms. In partnership with Panasonic Toughbook, CTI evolved from supplying cost-effective alternatives to developing its own ruggedized solutions, including RVDs, GCS controls, and network accessories, fully compatible with rugged COTS platforms.

D-FEND SOLUTIONS AD LTD.

D-Fend Solutions is the leading provider of field-proven, RF cyber-driven, non-kinetic, non-disruptive, AI-enhanced counter-drone takeover technology for sensitive environments. Focused on the most dangerous drone threats, the company's EnforceAir C-UAS avoids collateral damage and disruption, providing end-to-end detection and mitigation for situational awareness, operational continuity, safe landings and controlled outcomes.

LOWENTAL HYBRID

Lowental Hybrid develops Native Parallel Hybrid™ propulsion systems for tactical UAVs and loitering munitions. Its technology combines electric stealth and combustion endurance on the same drivetrain, enabling 5x extended mission time, silent operation, in-flight charging, and built-in redundancy. Designed for VTOL/non-VTOL fixed-wing platforms, Lowental Hybrid's systems help operators increase endurance and mission flexibility without relying on batteries alone.

MACUSHLA LTD.

MACUSHLA

Macushla provides attritable, versatile, combat-proven robotic platforms that serve as mechanical vanguards - ensuring first contact is always made by machine. Empowered by edge AI, multiple sensors, and Interchangeable quick-connect payloads, Macushla's systems absorb battlefield risk, accelerate the OODA loop, and deliver a complete unmanned solution for tactical dominance.
