

# AEROMAOZ LTD.

Aeromaoz has 3 decades of experience in developing, manufacturing and marketing ruggedized systems for Commercial and Military air, ground and naval applications.

Aeromaoz's main product line includes ruggedized HMI and Control systems, illuminated panels and lighting solutions – based on its expertise in Human Machine Interface applications and Night Vision Imaging Systems (NVIS) lighting compatibility. Field-proven and operational, Aeromaoz solutions are part of prestigious projects throughout the world.

A range of the company's products – including simple bezels, NVIS post lights, multi-functional display (MFD) bezels, and full night vision cockpit conversions – are integrated with the equipment of defense forces around the globe, and platforms developed by Boeing, Lockheed Martin, Elbit Systems, Dassault, Rafael, IAI, Embraer, Airbus and more.
