

OPGAL OPTRONIC INDUSTRIES LTD.

Field Proven Electro-Optical Solutions for Defense & Security

Opgal is a leading global provider of innovative infrared thermal imaging systems and advanced vision and surveillance solutions. For more than 30 years, Opgal is a major supplier to leading contractors and integrators for defense, law enforcement, security and industrial applications in over 50 countries.

Defense Solutions

Opgal's battlefield proven defense solutions are used by armed forces worldwide.

- Opgal's thermal cameras and multi-sensor camera systems for terrestrial / naval Remote Control Weapon Stations (RCWS) are designed to increase hit probability and enhance overall situational awareness.
- Opgal's electro-optical solutions for combat vehicles enhance their operability and effectiveness. A wide range of sights, driving

vision enhancement and situational awareness systems are offered for incorporation into new and upgraded/ refurbished armored vehicles. Opgal also provides especially designed kits for easy integration of its solutions onto specific armored platforms.

- Opgal's innovative personal vision systems include light-weight thermal weapon sights for a variety of ranges, and with an unbeatable price / performance ratio.
- Based on a wide variety of advanced technologies and field-proven products, Opgal provides integrators with custom made solutions to meet their customer needs for land, sea and airborne applications.

Opgal develops intimate relationships with its customers and works closely with them to provide high quality solutions that best meet their needs.
