

ROBOTEAM LTD.

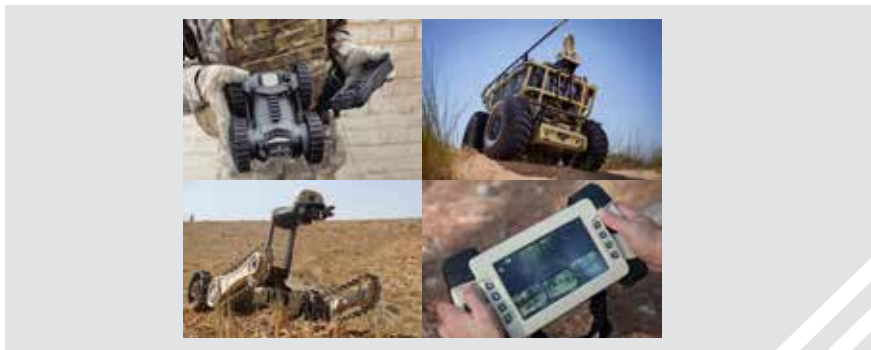

Roboteam designs, develops and manufactures cutting-edge, user-oriented, multi-purpose, unmanned platforms and controllers for Defense, Law Enforcement and Public Safety missions. Our team includes dozens of highly experienced engineers who are dedicated to creating units that provide complete operational and tactical control, overall mission management and enhanced force coordination.

We created a line of lightweight, fast deployable unmanned ground systems that deliver technological and functional breakthroughs for tactical purposes with unmatched reliability.

Roboteam has created a family of robotic solutions and operator control units designed for numerous operational missions such as:

- Gathering tactical intelligence and reconnaissance (ISR)
- Explosive Ordnance Disposal (EOD)
- Subterranean/Tunnel Investigations
- Search & Rescue (First Responders)
- CBRN & HAZMAT (Chemical, Biological, Radiological, Nuclear and Hazardous materials) handling.

Today, Roboteam is a global operation with offices in the US and Israel serving a wide spectrum of customers such as the IDF, US Military, Polish Army, Special Forces, EOD units and SWAT teams, with several lines of products. We strive to have the most intuitive, high-performance system that operates within a small logistics footprint and saves the lives of its operators, users, soldiers and civilians in Defense, Law Enforcement and Public Safety. Roboteam systems create certainty in unknown environments and enable safe and effective mission execution.
