

BETH-EL ZIKHRON YAAQOV INDUSTRIES LTD.

Beth-El Industries develops, designs and manufactures environmental protection systems for collective protection against airborne threats. The company offers a wide variety of highly efficient ventilation and CBRN filtration units which can be customized and integrated into any armoured vehicle, mobile shelter, vessel, tent, and shelter in various configurations.

Beth-El filtration systems provide:

- Full CBRN/NBC Protection
- TIC/TIM Filtration
- Air Conditioning for Shelters, Vehicles and Containers
- Heating and Ventilation
- Dust Protection
- Tear Gas Filtration
- Toxic Shooting fumes Filtration
- Blast Protection
- Engine Air Cleaners and Fuel Pumps for Tanks and Heavy Vehicles

The mobile medical isolation solutions of Beth-El, the IsoArk series, offer a complete solution for turning any room or space into a biologically contained area and have recently been used around the world during the Ebola and MERS outbreaks.

The N36 stretcher isolation system allows for safe transport of an infected person without contamination to the external environment.

Currently Beth-El products are in use in over 100 countries and operated by over 60 armies worldwide. The products are compliant to NATO and MIL-STD standards, and have been tested and certified by International Standards Institutes and Laboratories from countries all over the world.
