

COMPUTECH INTERNATIONAL (CTI)

Established as a privately held company in 1995, Computech International (CTI) provides government, industrial and commercial customers with advanced high-quality components and managed military IT and communication solutions suited for the harshest conditions and complying with the military standards for environmental conditions and electromagnetic emissions/susceptibility required by the modern military.

CTI has design, development, manufacturing, integration and service facilities in both Israel and the United States enable rapid support to customers' needs and requirements.

CTI is well known for its state of the art, cost effective, reliable Commercial-Off-The-Shelf (COTS) - based rugged computing solutions, which are modified-to-requirement to the tactical military arena, replacing the current design-to-spec "boutique" military solutions.

CTI's portfolio of solutions includes ruggedized computers, tablets and accessories for heavy armored combat vehicles and wheeled vehicles, as well as wearable computers, tablets and accessories for the digital dismounted soldier. CTI also offers 360 degrees situational awareness solutions for combat vehicles and Ground Control Stations (GCS) for various unmanned platforms like UAV's and UGV's.

CTI is an authorized supplier to the Israel Ministry of Defense (IMOD), IDF and the IMOD Procurement Mission to the U.S. for FMF-based purchases. We are a significant supplier to the Israeli federal government, Israeli Defense contractors and other allied companies.
