RAFAEL
ADVANCED DEFENSE SYSTEMS LTD.

RAFAEL ADVANCED DEFENSE SYSTEMS LTD.

Rafael Advanced Defense Systems Ltd. develops and manufactures cutting-edge technologies for the Israel Defense Forces (IDF) and the defense establishment, as well as for international customers around the globe for the last 70 years.

Rafael's Systems are in use by land, air and naval forces all over the world, supported by local industry, technology transfer and production with international partners. Rafael has created teaming-agreements with over 100 governmental, aviation, space and defense organizations in Israel and worldwide. These programs allow Rafael and its partners to capitalize on mutual strengths and leverage capabilities.

Rafael has developed some of the world's ground-breaking defense systems, including:

- "Iron Dome™" – air defense against Rockets, Artillery, and Mortars (C-RAM), and other Short Range threats, including UAV's;
- "David's Sling™" – air defense against medium-long-range artillery rockets (LRAR), short-range ballistic missiles (SRBM), cruise missiles (CM) and traditional aerial threats;
- "Trophy™" - Active Protection System (APS) for armored vehicles, and the only operational, combat-proven system in the world.
- Spike™ family - advanced precision, electro-optical, tactical missiles.
  Samson™ family - RCWS - Remote Control Weapon Stations.
