

IMI SYSTEMS LTD.

IMI was established in 1933 and was fully owned by the Israeli government.

On January first 2016, IMI transferred its core business activities, assets, obligations, rights and its employees, to IMI SYSTEM LTD. - an Israeli company wholly owned by the State of Israel.

IMI SYSTEMS specializes in the development, integration and manufacture of offensive and defensive solutions for the modern battlefield and homeland security. IMI SYSTEMS' state-of-the-art artillery, armor, infantry, air, HLS and small caliber ammunition systems, draw on the extensive experience of the Israel Defense Forces (IDF). Most of these are combat-proven and have been type classified by the IDF, US Army, Air Force & Navy, as well as NATO members and armed forces worldwide.

IMI SYSTEMS' comprehensive solutions include end-to-end product support, from start to finish: training, integrated logistics support, maintenance and mid-life upgrades, transfer of technology and complete after sales support.

The company employs over 2,400 skilled, highly-qualified and devoted employees in three divisions (firepower systems, land warfare & mobility and small caliber ammunition systems) and owns two subsidiaries: IMI Academy for Advanced Security & Anti-Terror Training and Ashot Ashkelon Industries.
