

Let yourself be inspired by Israel's advanced defense technologies & solutions

ISRAEL
at
SEOUL ADEX
19 - 24 October 2021

IAI - Israel Aerospace Industries

Hall B, stand #B61

- Airborne Early Warning & Control Aircraft (AEW&C).
- ISTAR Mission Aircraft.
- Passenger-to-Cargo Conversions of B737, B747, B767 families.
- Heron MK II Medium Altitude Long Endurance (MALE) UAV.
- Naval Defense Systems.
- Loitering munitions systems.
- Helicopter Avionics Upgrades.
- Network Centric Operations (NCO) and Data Links.

ELBIT Systems

Hall B, stand #B42

- Gen-5 Avionics, Training and Simulation.
- Platforms self-protection solutions.
- Precision-Guided Munitions.
- Communication and digital soldier suites.
- Cyber Intelligence solutions.
- Intelligence, Surveillance, Target Acquisition and Reconnaissance technologies.

RAFAEL

Hall B, stand #B91

- Air and CRAM Iron Dome, David Sling and Sky Spotter systems.
- Air to Air I-Derby and Python 5 missiles.
- Air to Surface Spice and Long Range EO precision weapons.
- Advanced Litening 5 and Reccelite Pods.
- Spike Multi-Range tactical missiles for Helicopters and Land combat
- Integrated combat suite & Trophy Active Protection System for Armored Vehicles.
- Advanced MANET BNET SW Radio Network for Land and Aerial applications.

Ophir Optronics Solutions |

Hall B, stand #B92

- SWaP optimized lenses for UAV's and HHTI.
- Ultra-long-range thermal imaging lenses suited or aviation and observation systems.
- Lenses for ground applications, including long range surveillance systems and border control.
- High precision optical components & large mirrors for multi-spectral long-range surveillance applications
